		As a college student, I rely on the internet for paper sources, contact with teachers, scholarship oppertunities
	8	and even day to day homework. Internet fast lanes could make these tasks impossible for those unable to
Sarah	Murphy	afford them.
		I am in favor of fair prices and non-discriminatory access to the internet. Please do not change the rules in a
Samuel Co.	2000-00-00-00-00-00-00-00-00-00-00-00-00	way that permits the monopolies that serve individual consumers to set prices as they see fit, regardless of
Brian	Murphy	their customer's preference.
		It is critically important for economic development, innovation and the democratic process to NOT allow
Colin	Murphy	selective speed content access. Preserve true net neutrality by NOT allowing a tiered system.
Michael	Murphy	No internet fast lanes! I agree with Michael Copps: ISPs should have common carrier status.
Lisa	Murphy	Please stop screwing middle America!
2		The very concept of fast internet lanes for a few and slow for the rest is abhorrent in a democracy. The fact
Dana	Murphy	that it is even being considered is deeply disappointing.
200000000		There is no ethical argument to be made for allowing enormously rich corporations such unimaginable

Murray	Don't give control to the deep pockets!

Murray	the internet.
	The Internet, the greatest tool for communication and 1st Amendment democracy in my lifetime of 64 years,
Murray	and developed with tax payer funding, should remain neutral, that is, one speed access for all users.
	This is no different than establishing 'fast lanes' on our highways for use by large corporate carriers. We must
Murray	protect small businesses and insure fair and unrestricted internet.
Murray	
	Media consolidation has already affected our representative democracy in that we only hear what they want
Murray Jr	us to hear. This will grant more power to already too powerful corporations.
	Dear FFC, I ask you to not allow "fast lanes" for telecom and cable companies to have control over what we
Murrow	can see and and say online via the internet. As a citizen I ask you to maintain net neutrality. Sincerely,
Murry	
	Big ISP and tech companies have it too easy now. They are preying on us in ads, service at their interest,

	Let's go back to serving all of the people not just the rich ones. The unencumbered neutral internet is the one
